Hi All,

Meeting materials are now posted on our website (thanks, Ivonne and Melissa!). I drafted a brief follow up email for everyone who registered - see below. Please let me know **by 2 p.m.** if you suggest any changes/additions. Eric, are you available to help with a quick translation?

Thanks!
-mc

Dear Community Partners,

Thank you for joining the Chicago Department of Public Health (CDPH) for the RMG/Southside Recycling Health Impact Assessment (HIA) engagement session. We understand that we are addressing a topic that people feel strongly about - because, as we said, it affects lives and livelihoods. We appreciate everyone for candidly sharing your thoughts and suggestions. As discussed, all of this input shapes and informs our assessment.

Meeting materials from our session - including the agenda, slide decks, and recording - are now posted on our [website](#). You can find the U.S. EPA's air quality report [here](#). We will notify you when responses to any questions that we didn't get to last night are available. If you have feedback on the session, feel free to email us at envcomments@cityofchicago.org.

The next session, which will cover the assessment of potential impacts and recommendations, will be held on **Thursday, December 2nd from 5-7 p.m.** Please think about two key topics:

- How could we maximize community benefits and mitigate burdens in this permitting decision?
- What changes to policies or processes should the City consider based on this experience?

Look out for additional details about the meeting and how to register in the coming weeks. We look forward to seeing you again.

-mc
